

Mercy Celebrates Hospital Week

Grayling Mercy Hospital is celebrating National Hospital Week this week with extra emphasis on the employees who provide the skill and talents which make Mercy Hospital so special.

"You're a Special Kind," is the message going out to employees from the hospital management this week. Sister Mary Ellen Howard, president and chief executive officer, said "our employees and staff stand out as skilled and caring individuals who often are called upon to give of themselves beyond normal duties and responsibilities. We take this week to recognize their dedication and compassion and to let them know they are truly a special kind."

Employees are receiving free coffee in the cafeteria this week and an Ice Cream Social is planned for Wednesday in the cafeteria for employees and their families. For a quarter, em-

ployees can build their own ice cream Sundae.

On Thursday employees will be treated to a slide presentation presented by Mr. Kip Papendick, director of maintenance, on his trip to Palau where he assisted in setting up a maintenance program for the local hospital.

On Friday the hospital is sponsoring the "Employee Recognition Cook-Out - You're One of a Kind," out- ing behind the hospital from noon until 2 p.m. The food for the cook-out has been donated by local merchants.

All employees and their families are invited to the cook-out and employees on duty will be able to participate during their lunch period. Deryl Holmes, director of public relations, said those employees who work the night shift will be provided a free breakfast Saturday morning in the cafeteria.

Jaws of Life Used To Free Pinned Man

The Grayling Fire Dept. used "Jaws of Life" equipment to free an Onaway man pinned under his semi-truck near the intersection of M-93 and Military Rd. Sheriff deputies said Karl Pauly, 39, apparently lost control of the rig and attempted to jump from the cab. Pauly was trapped underneath the trailer as it flipped over spilling its load of wood chips. Pauly was taken to Mercy Hospital for treatment by the ambulance corps. The accident occurred May 2 about 8:34 a.m.

Local Building Contractors Meeting May 11th

A meeting for all local builders and contractors will be held Friday, May 11, 8 a.m. at the Grayling Middle School Library to discuss information about a proposed middle school construction project. Bill Coberley, of Elizinger and Volkens, Inc., will present information regarding procedures for bidding and bonding requirements for local builders and contractors.

This is an open invitation to the business people and citizens of Crawford County and the neighboring Counties to visit the Park and take the opportunity to familiarize themselves with this unique area attraction.

Truth-in-Taxation Hearing May 17

The Crawford AuSable School Board will hold a truth-in-taxation hearing May 17 at 7:30 p.m. at the High School Library. The board is required to hold a public hearing if they are considering levying the same amount of millage and the S.E.V. plus or minus additions and losses in the tax base is greater than the preceding year. The S.E.V. for 1984 has increased 3.82 percent from 1983. Crawford AuSable's voted millage of 24.1 remains the same, and the public hearing will help the board decide if they levy the entire 24.1 mills. The public notice advertisement for the hearing is on page 10.

Open House May 19 for New \$1.8 Million Camp Building

An Open House for a new \$1.8 million Logistical Support Facility (LSF) at Camp Grayling will be held Saturday, May 19, announced Colonel Ivan Gwilt, commander of Camp Grayling.

Gwilt said the Open House, held in conjunction with the celebration of Armed Forces Day, will allow the public to visit the new facility. The Open House will be held from 11 a.m. to 2 p.m. with a ribbon-cutting ceremony at 11:05 a.m. near the main entrance of the facility.

The LSF covers more than 100,000 square feet containing storage and administrative area. The new building

replaces more than 20 separate buildings located throughout Camp Grayling and consolidates all supply and storage needs for the main camp in one building.

Supplies, equipment, and rations will be received, stored, and issued at the LSF to troops using Camp Grayling. Each troop unit is issued supplies upon arrival and must return non-consumable goods prior to departure. Rations are issued continually during troop training at the camp. The new LSF will streamline and speed these functions providing a better cost-efficient operation and per-

mitting more time for troop training.

The LSF employs 12 persons full-time with an additional 33 seasonal employees during Annual Training periods. During 1984, Colonel Gwilt estimated more than 36,000 troops will train at Camp Grayling — including one encampment period with more than 15,000 troops training at one time.

In addition to tours of the LSF, the equipment will also be displayed during the Open House adjacent to the new facility. Refreshments will be provided and Col. Gwilt encourages the public to visit during the Open House.

Commissioner Joyce Resigns

By Jon Thompson
Crawford County Commissioner Garland "Bud" Joyce resigned from the county board Saturday saying he was disappointed in the board's ability to work as a unit.

In a letter dated May 5 addressed to board chairperson Jeannette Kitchen, Joyce said his decision to resign was made over a long time.

"Upon election, I had believed that my long, diversified experiences in areas related to, and necessary for successful public office, would bring an added dimension to the Board where it was evidently lacking before. More than 370 voters of District 7 obviously

believed as I did," Joyce said in his letter.

"It was evident from the start of my term that such would not be the case. The 'reigning cabal' (re-elected with no opposition) quickly made it known that 'you're new, you will learn our way'. The board had no up-dated policies, no job descriptions, did not follow P.A. 621 (State Finance Act) of 1978, expended unbudgeted funds as it chose (e.g. \$17,000 for police radios, salary increases were not budgeted). That was the case in Jan. 1983 — it is still the case in May, 1984, despite attempts and offers to assist in these areas.

"In 1983, more than \$10,000 was spent for an "Outside

Labor Consultant" while such a person sat on the board, removed from the Labor Committee for offering advice on a personnel case, which, if followed, could have saved the county at least \$20,000. The employee is currently back at work as was predicted to you last March (1983)," stated Joyce.

"I find it impossible to continue to attempt to work with this oligarchy that allows one member to publicly state that 'there's no use of Joyce, Welsor or Neilson coming to the meetings because we can out-vote them on anything we please, anyway.' This deprives the board of all integrity and,

New Housing Head Must Have HUD Management Certificate

By Jon Thompson
The new manager of the Grayling housing project will need a public housing manager certificate.

Dorothy Latuszek, president of the Grayling Housing Commission, said Wednesday at a special meeting the certificate will be the main qualification for a new manager of the 88-unit housing project. The certificate is obtained through a schooling process with HUD, Latuszek said, but that was about all the information the commission knew about the certificate at that time.

HUD requires all managers of projects with more than 75 units to have the public housing management certificate. Latuszek said Kathy Miles, a HUD official, told her a temporary certificate can be obtained. HUD will not approve the salary of a manager of more than 75

units if the manager does not possess a public housing manager certificate.

Lora Gould, former director of the housing project, did not have to have a public housing manager certificate because she was hired before 1981 when the new regulations went into effect requiring the certificate, Latuszek said. Grayling also did not have more than 75 units until recently.

The commission is advertising the position in a fifty-mile radius and set a June 8th deadline on applications. The commission did not determine a salary Wednesday leaving wages and benefits negotiable. The commission did say the top salary allowed by HUD is \$13,900, and they said housing for the new manager possibly will be included with the job.

Other qualifications for a new manager preferred by the commission include a high school diploma, experience with preparing HUD grant applications, experience in filling out performance reports, understanding of lease and rental agreements along with competition bid procedures for construction projects, and an ability to work well with the general public.

The commission took these preferred qualifications from guidelines used by other housing commissions and added a qualification of experience with budget preparations within HUD guidelines because that was a problem area in Grayling before.

Latuszek said she probably wouldn't be in favor of starting a new manager at the top of the pay scale but salary will depend on ex-

perience and qualifications. She noted that the Grayling housing project had the highest administrative costs out of 17 other housing projects she studied. Another housing project with 110 units had a top salary of \$11,000 for a housing manager.

In other housing commission news, Latuszek reported that a station wagon used by the former director Gould is being sold, and all signs referring to the senior citizen center have been removed. A new sign stating Grayling Housing Commission has been erected.

Latuszek reported that a review of all tenant files is continuing and corrections in leases and rent payments are being made. An audit by HUD will begin this week.

Latuszek said all policies of the housing project are

Judge Rules Against K mart Project Lawsuit

By Jon Thompson

A lawsuit against the Crawford County Economic Development Corporation K mart project went down for the second time Monday as Circuit Court Judge William Porter issued his ruling following a March 19 hearing.

Crawford County Prosecutor John Huss said Porter ruled on all counts in favor of the EDC board and county board of commissioners, defendants in the lawsuit filed by John Kraus, co-owner of the Ben Franklin Family Center.

Jeannette Kitchen, Crawford County Board of Commissioners chairperson, said she was happy about the decision and hoped the county could get on with regular business now.

In an earlier hearing Jan. 9 Porter ruled Kraus did not have legal standing, or the right to sue the project.

Kraus filed an amended lawsuit and in the second ruling Porter also said Kraus failed to show legal standing.

"The Court finds that plaintiff lacks standing to bring instant action because his claimed future injury (a loss of business from unfair competition and increased traffic and use of his facilities) is not sufficiently concrete..."

Furthermore, Porter said for the alleged future injuries of trespass or nuisance resulting from increased traffic on the road in front of his business and use of his facilities, including walkways and parking lots by K mart patrons, Kraus is pro-

ected by common law. Porter said that common law protection is entirely unrelated and unaffected by the EDC act.

In addition, Porter stated that there is no common law right "to be free from the competition by another who has the benefit of advantageous loan interest rates."

Kraus had claimed the approval of public bonds for the K mart project would give his competitor an unfair advantage of about \$52,000 a year in lower rent.

Porter also ruled Kraus failed to provide legal cause to show why the court should intervene with the project.

The Grayling K mart store, located along the I-75 Business Loop south of town, is nearing completion and is expected to be open this summer.

Gould Remains Aging Commission Director

By Jon Thompson

A motion to impose a 90-day leave of absence on Lora Gould, director of the county Commission on Aging, was referred to a new personnel committee by a 9-2 vote of the commission Tuesday morning.

Barbara Selesky made the original motion to impose a 90-day leave of absence to settle down seniors while the commission put programs back in order. Mary Harland supported the motion stating it wasn't fair for an employee to be in the middle of everything while the commission examined operations.

Jeff Regan moved to refer the leave of absence motion

to a personnel committee formed that morning. Regan said a leave of absence would create a need for a temporary director — further causing fragmentation of programs.

Ed Dailey, of Frederic, one of about 50 persons attending the meeting, said the commission has lost its credibility with seniors in the county and will lose any attempt to obtain more millage. He said the commission needs to restore its credibility somehow.

In other action, a motion to table any decisions concerning facilities for programs was passed. A special committee of Paul Lerg, Dorothy Allen, and Regan had offer-

ed six possible sites for programs: the Grayling Housing Commission project, a former liquor store owned by Van's, M-72 Plaza, the former Montgomery Wards store, the former Foodland, and the former Fred Bear Museum. Allen said it was her dream that the seniors would someday own their own place instead of renting.

The aging commission unanimously passed a motion to establish three committees, a finance and policy committee, a personnel committee, and a planning and programs committee. Lerg, in support of establishing the three com-

GHS Players Present "Annie" This Weekend

For the Grayling High School Players, nine long hard weeks of rehearsal and preparation will come to an end on Thursday evening when they raise the curtain on the Joseph Stripe Auditorium on their opening performance of the Broadway Musical "Annie". "Annie" will be presented again on Friday and Saturday evenings as well as a matinee performance at 2 p.m. Saturday afternoon. All evening performances start at 8 p.m. with doors opening

at 7:30. The box office will open at 6:30 each evening.

There are still a few tickets available for all performances of "Annie", however, ticket orders are pouring in daily. Those planning to see "Annie" who do not have tickets already should call the Community School Office to obtain the latest ticket information.

For the Grayling High School Players, the staging of "Annie" was a monu-

mental task. According to director Howard Taylor, "Annie" is the biggest show to be staged by the Players since "Fiddler" or "Music Man". During the course of the performance, the audience will witness the construction of 11 completely different scenes. More than 30 gallons of paint were needed to paint the scenery and 120 costumes will be utilized by the 27 ac-

Deadly Bomb Found in Home

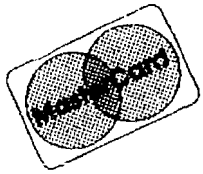

An 81-millimeter mortar illumination round powerful enough to destroy a house was recovered from a Maple Forest home June 1 by sheriff deputies and an explosive ordnance disposal team from Selfridge Air National Guard Station at Mt. Clemens.

The two-foot long round was carried off a range north of County Rd. 612 by children. Colonel Richard Schmidt, deputy post commander at Camp Grayling, said the front fuse was broken off the 81-millimeter round and bumping it under certain conditions may have set it off. The round was taken to Camp and detonated by the EOD team.

The owners of the home near Sherman Rd. also turned over 12 live 20-millimeter rounds shot by aircraft and 300 7.62-millimeter blank machine gun cartridges. Col. Schmidt said the blank cartridges are considered dangerous because people have been killed by them.

Also turned over were four smoke grenades, six star cluster cartridges (used to illuminate and fired from a rifle or by hand), 12 20-millimeter rounds, and four tail ends of anti-tank rounds. All these ordnance were determined by the EOD team to be expired or burned out.

The police and military were called to the house by a relative concerned about the dangerous range objects. No charges were filed and anyone possessing range items should call Camp Grayling or the sheriff dept. immediately. Camp Grayling advises all persons to leave items found on the ranges alone. What many people consider to be an empty shell could be a live round.

From Our Corner...

We were asked the other day when we planned on retiring...seeing that you are considered a senior citizen now it must be getting close...we told them very soon, and right about now we wish it was now...we have been struggling with this turkey all afternoon to try and get it started, and no brain storms showed up and we're still struggling...if we were retired now I can just see myself in the back yard, no, not working, just sitting and watching the robins build their nests and seeking angleworms, and waiting for the Orioles to show...we have some oranges waiting for them, and if the weather stays warm now it should be soon for their arrival...

We enjoyed having our granddaughters, T.J. and Stefany with us this past weekend, we will mention here it is quite different in the house with young ones around...but then, they are old enough so that they shift mostly for themselves, all we have to do is be the referee when they get into a squabble, and be prepared to watch what they want to watch on TV...they were only here for a short time, and it is still hard for us to think about them moving to the Buckeye state in a couple of months...we have nothing against the State of Ohio, in fact we were appointed an honorary Buckeye Colonel of the Ohio Militia in 1978 by the Ohio National Guard, our thought is that it is so dang far away, after having them so close...while we are on our family tree we might mention that Thelma talked to Dane Sunday and now he is talking like something around June first to come to Michigan...if Amber is to see her cousins in T.C. he hadn't better wait too long, but then I guess there is the matter of job interviews going on out there about now...

R.J. is well and kicking, he surfaced Friday afternoon after about two months of not stopping by the Avalanche to help us out on our turkey...as usual, he said he has been real busy taking care of his school duties and trying to sell a little real estate...he mentioned he had spent his Easter break with his parents visiting a brother in Louisiana and of course when he drove his parents back to his beloved jungle he just had to take in Atlantic City for a game or two...he said for a change he came out a little bit ahead of the game on this try...he better carry the same rabbits foot the next time he goes east, not many come out winners, we should know, we have watched our bride in Las Vegas...

An idle thought...now that R.J. has surfaced possibly we can expect a visit from Irv the retired railroad man, he hasn't been around since it started to get nice out, possibly it's that green patch of real estate south of the city that is keeping him busy...we ran into one of our mutual friends, Jimmy Ott, the other day, he was in town from his retirement place at Higgins Lake and also inquired about Irv, he did mention that if anyone asked, to tell them the fish are really biting at Higgins...

Just another reminder...do be careful with fire, the woods are dry again and it doesn't take much to get a forest fire going...always check with the Department of Conservation before you do any burning in town, or out of town, they will let you know if it is safe or not...

To help the ol' fella out in filling this turkey from time to time we will be running a small cartoon...they are the brain child of Burnie Bonnell of Mt. Pleasant who also has a summer home on Higgins Lake...if you think of it let us know what you think about the cartoons...the first one will appear in next week's issue...

With election time approaching rather rapidly, here are a few guidelines that must be adhered to according to law...Each ad must clearly state the name of the person or organization that paid for the ad and whether it is authorized by the candidate...Newspapers are, as with any other kind of advertising, free to reject any political ad for any stated or unstated reason...ads must be paid for in advance...

This will take care of this week's efforts, and it has been an effort, so we will bid T.J., Stefany and Amber goodnight, and to all of our readers have a nice weekend, do be careful with fire...

An attempt is being made in Grayling this week to raise a \$32,000 industrial development fund in order to construct a factory building near Grayling that will house an industry which will manufacture wooden reels that carry heavy wire and cables.

If the money-raising venture is successful, the plant will begin operations as soon as construction is completed. The plant is now operating in Bay City where 12 men are employed. At least 16 men would be put to work if a Grayling plant is opened with the distinct possibility that 40 would be employed by the end of the year and a half, said Harry Young of Grayling. Land is expected to be made available on a railroad siding at the south end of Grayling for the new plant which would cover 10,600 feet with a good chance of enlargement in the near future. If the plan goes through the new business would be incorporated as the Grayling Reel Company, Inc.

The reels are constructed of 90 percent aspen and that of large size which pulp mills don't particularly need, it was explained. The reels made by the company range from 17 inches to 7 foot. There are four plants now in the United States manufacturing such reels and it is estimated that 18 million dollars worth of them are sold each year.

The Bible Speaks

From Calvary Baptist Church

MARKS OF A HYPOCRITE Matthew 23:15

Remember, a spiritual leader who is a hypocrite is unsaved and helps keep others unsaved. Second, he is a spiritual leech who takes advantage of the helpless by his false spiritual piety. And now, third, he is great to proselyte followers. "Woe unto you, scribes and Pharisees, hypocrites! for ye compass sea and land to make one proselyte, and when he is made, ye make him twofold more the child of hell than yourselves." Matthew 23:15.

"...Ye compass sea and land to make one proselyte..." No where do we find this more evident than in the worst cults. They are constantly knocking on your door to sell you literature or hold some form of "Bible" study in your home. Their only concern is to proselyte you to follow their error. They will spend hours with you just to get you hooked. False religions know that people who have some form of religion are the best prospects to win over to their position. They are already going to church, therefore it is easier to get them to switch churches than to reach the unchurched.

Spiritual hypocrites are children of the devil. Jesus said in John 8:44, "Ye are of your father the devil, and the lusts of your father ye will do. He was a murderer from the beginning, and abode not in the truth, because there is no truth in him. When he speaketh a lie, he speaketh of his own: for he is a liar,

and the father of it." These words of Jesus were spoken to these same scribes and Pharisees who were the religious leaders of His day.

Jesus said, a proselyte to a false religious cult becomes worse than the leader, "...ye make him twofold more the child of hell than yourselves." People deceived by unsaved spiritual leaders become twice worse in their thinking and practice than those who deceived them.

The great apostle Paul commended the Bereans as perfect examples in not being proselytes. "These were more noble than those in Thessalonica, in that they received the word with all readiness of mind, and searched the scriptures daily, whether those things were so." Acts 17:11. Their final authority was the scriptures in the Bible, not the great apostle Paul. Your Bible alone must be your authority if you are to avoid becoming a proselyte to some false religious leader. Notice also these Bereans avoided another error, they went to hear God's servant preach. They didn't use religious hypocrites to hide in their closet and avoid public worship. Hebrews 10:25. (adv.)

Senate Calls For Balanced Budget Amendment

Warren M. Hoyt, Executive Dir., MPA

Shunning concerns that a United States constitutional convention could and would not be limited to a single subject, the Republican-controlled state Senate recently approved a resolution directing Congress to either adopt an amendment to the constitution for a balanced federal budget or call a convention to have delegates draft the amendment.

Thirty-two of the required 34 states have petitioned Congress for the balanced budget amendment.

Michigan is considered a key state as a 33rd state is expected to move Congress to act rather than wait for a 34th to demand a convention.

Four Democrats joined 19 Republicans in approving the balanced budget resolution while only Senator Harry DeMaso (R-Battle Creek) crossed over to vote against the resolution with the other Democrats.

Those Democrats voting in favor of the resolution were Senators James DeSana (D-Wyandotte), Gilbert DiNello (D-East Detroit), Joseph Mack (D-Ironwood) and Arthur Miller (D-Warren).

The resolution was substituted to provide guidelines against a so-called "runaway" convention which could open the constitution to any subject matter.

The substitute, written by Senator Connie Binsfeld (R-Maple City), first asks Congress to propose the amendment and send it to the states for ratification and second, petitions for a convention should Congress fail with its own amendment.

The substitute further limits any convention call to only one "specific" purpose of a balanced budget amendment and if the convention is open further, the Michigan petition would be null and void.

Arguments centered around whether a federal convention could

be limited to a single subject. Senators cited constitutional lawyers depending on which side of the issue a member happened to be.

Senator Gary Corbin (D-Clio) said constitutional scholars say that once a call for a convention is made, it cannot be limited in subject areas. The convention would be limited by its own actions, he said.

Binsfeld, citing lawyers of her own liking, said the resolution specifically limits the call. She added that should the subject of the convention get out of hand, the Michigan resolution would no longer be effective, making the call invalid.

Senator John Kelly (D-Detroit) said he was terrified of the prospects of a constitutional convention that could ultimately undo the framework of the constitution that has been in effect for 200 years.

He said the resolution could prove to be "extremely divisive" for the country that is already divided by various factions by opening the constitution to various single-issue groups.

Kelly assured the membership that if a convention is called he would be elected as a delegate and offer amendments to disban overseas military forces, ban handguns, guarantee comparable work, nationalize banks and oil companies, limit the freedom of the press and make Catholicism the official religion of the nation.

Senator Basil Brown (D-Highland Park) called the resolution a "myth and lie" by conservative, right wing members. He said without deficit spending, the country would not be able to exist. He concluded the resolution was just political with no bearing or relevance.

The resolution is expected to receive little consideration by the Democratic-controlled House of Representatives.

Garage, Yard, Porch, Sale Signs Notice

The Grayling City Police are again, with the warm weather, experiencing problems with "Garage", "Porch", "Yard" sale signs being attached to utility poles, trees, and sign posts throughout the City. The public is being requested to cooperate by not attaching these signs to permanent fixtures upon public property as doing so only requires the Police Department to remove same. Persons placing signs on utility poles without authorization may also be exposing themselves to legal liability in the event the signs were determined to have resulted in personal injury.

The public is also requested to contact the Police Dept. for information as to type of sign and method of placement acceptable.

1983 Leader Dog Graduates

"Duke" a chocolate Lab raised by Todd Peterson of Grayling was placed with Tommy J. Flanders II of Texas.

"Barney" a black Lab raised by James Kolka of Grayling was placed with Naomi Cruz of New York.

"Harpo" a Golden Retriever raised by Susan & Mike Harnois of Mio was placed with Lori Ann Dodd of Canada.

"Ebony" a black Lab donated by the Fenton family of Mathis Rd. near Grayling and prepared for school by Lion Jim Kolka was placed with Ruth E. Reynolds of Michigan.

The Grayling Leader Dogs 4-H Club turned out 3 more graduates at Leader Dogs for the Blind in 1983.

These 4-H families were given puppies donated by breeders for the Leader Dog Puppy Program. These families raised these puppies under the supervision of 4-H leader Nancy Hatfield for approximately 1 year. These puppies were then taken down to Leader Dogs for the Blind in Rochester, Michigan where they were tested for the qualities needed to become a Leader Dog.

Upon passing this test they then were accepted for their new experience and hard work at becoming a graduate. The whole process takes approximately 6 months. In their last month of training they are teamed up with their blind person for approximately 4 weeks. Then, at the end of this time, if all goes well the "team" graduates and the blind persons go home together to start their new life.

RSVP Carnation Community Service Award

by Sherry Haag

The Carnation Community Service Award will be presented May 18, at the Retired Senior Volunteer Program 11th Annual Recognition dinner. The award, donated by the Carnation Company, honors a group that gives generously of themselves for the benefit of the community and to aid welfare causes. A further objective is to direct public attention to the importance of volunteer activity.

The engraved Paul Revere design silver bowl, along with a citation, will be presented to a non-profit organization or agency which is a station of RSVP. The selection of the recipient of the 1984 award was made by the Retired Senior Volunteer Program Advisory Council at their April 11, 1984 meeting.

Established in 1972 by the Carnation Company, the community award is now initiated throughout the United States. The award has been presented through RSVP to the Historical Society in 1975, Grayling Booster Club in 1976, the Lions Club in 1977, the Grayling Business and Professional Women's Club in 1981, the American Red Cross in 1983 and Hartwick Pines Natural History Association in 1983.

The May 18th RSVP Recognition Dinner honors all Retired Senior Volunteers and is in appreciation of their volunteer hours served in the community. All Retired Senior Volunteers who have served 30 hours or more are guests of RSVP. Dinner for all other guests is \$6.00. The public is invited to attend. Call 348-4341 or 348-8322 for more information or to make a reservation. Reservations by May 16, 1984, please.

Doodles From The Tall Timber

Every summer I am asked how long this or that bird or animal lives. This can only be answered by delving into some reference book which has data based on birds or animals kept in captivity. To say the least, such data must be taken with a grain of salt.

One thing that no doubt contributes to a short life among birds is the rearing of young since they give an immense proportion of their life's energy to this task. In captivity, many birds live for ten years or more, but in the wilds the small species rarely survive more than a year or two according to one source I have. Many live only long enough to rear one summer's young. It appears that a large number of birds die near the end of their first breeding season. The effort expended in raising their broods is so great that the adult birds are often exhausted and even emaciated. There is little wonder in this since a young nestling must be given more than its own weight of food each day. During the average two weeks the typical nestling stays in the nest, it receives a daily ration of half its weight. If there are four, five or more young, it would seem the amount of food needed is nothing short of enormous. Tree sparrows, nesting in Canada, with as many as six young, hunt from three in the morning until ten at night. Titmice weight only half an ounce as adults, but they have been known to carry food to their young 475 times in a single day. One study showed that a song thrush caught 10,080 larvae and insects in one month's time, or an average of 336 per day.

Peaches are native to China. The Spanish brought them to the New World.

The Grayling High School Individual Events (Forensics) Team finished its 1984 season at the Regional Tournament on Friday, April 13, at Kirtland Community College. Sophomore Kathy Allen, in the Serious Interpretation category, and freshman Debbie Schanz, in the Storytelling category, both took third places at the District Tournament, to qualify for Regionals. At the Kirtland competition, Debbie was a semi-finalist.

The GHS team was composed of 17 students who competed in 15 categories at the District Tournament: Stephanie Hindmarsh and Brenda Praise - Dramatic Interpretation; the teams of Pat Moore/Monique Petrosky and Kevin Reynolds/Damon Thayer - Duo Interpretation; Troy Haag - Humorous Interpretation (open); Patty Hatfield - Humorous Interpretation (9th-10th).

Colette Petrosky also competed in Serious Interpretation; Jeff Martinez also competed in Storytelling; Kim McDonough - Extemporaneous Speaking (9th-10th); Barb Fitzgerald - Informative Speaking; Laura Grudzien - Radio Broadcasting; Erin Hickey and Kristin Lademan - Sales Speaking.

Seven of the students were second year team members; the remaining ten, including Kathy and Debbie, were competing for the first time. Only three of the group - Troy Haag, Pat Moore, and Monique Petrosky - are seniors, so the bulk of the team will be eligible for competition in 1985.

The GHS Individual Events team was coached by faculty member Nancy Lemmen.

Roadrunner Stew
Mexican curanderos, or
folk healers, prescribe road-
runner meat as a medicine in
recognition of the bird's for-
midable ability to digest poi-
sonous animals. Curanderos
believe that tuberculosis can
be cured by eating a stew of
roadrunner meat, onions,
tomatoes, and garlic. This
elixir is also good for back-
aches, itches, boils, lung
problems, and leprosy.

Notice of a Public Hearing On Increasing Property Taxes

PLEASE TAKE NOTICE that on May 17, 1984, at 7:30 o'clock p.m. at Grayling High School Library the Board of Education of Crawford AuSable School District will hold a public hearing on the levying in 1984 of an additional proposed millage rate of .88722 mills for operating purposes pursuant to Act 5, Public Acts of Michigan, 1982.

The Board of Education has the complete authority to establish that 24.1 mills be levied in 1984 from within its present authorized millage rate.

The maximum additional proposed millage rate would increase revenues for operating purposes from ad valorem property tax levies in 1984 otherwise permitted by Act 5, Public Acts of Michigan, 1982, by three and eighty two hundredths percent (3.82%).

The figure for increase in revenue for operating purposes is based on the latest estimate of state equalized valuation of property located within the school district. State equalized valuation will not be finalized until after the fourth Monday in May. In the event that state equalized valuation as finalized is for any reason higher than the estimate used for this hearing, the Board of Education must hold another public hearing before levying millage on any higher valuation.

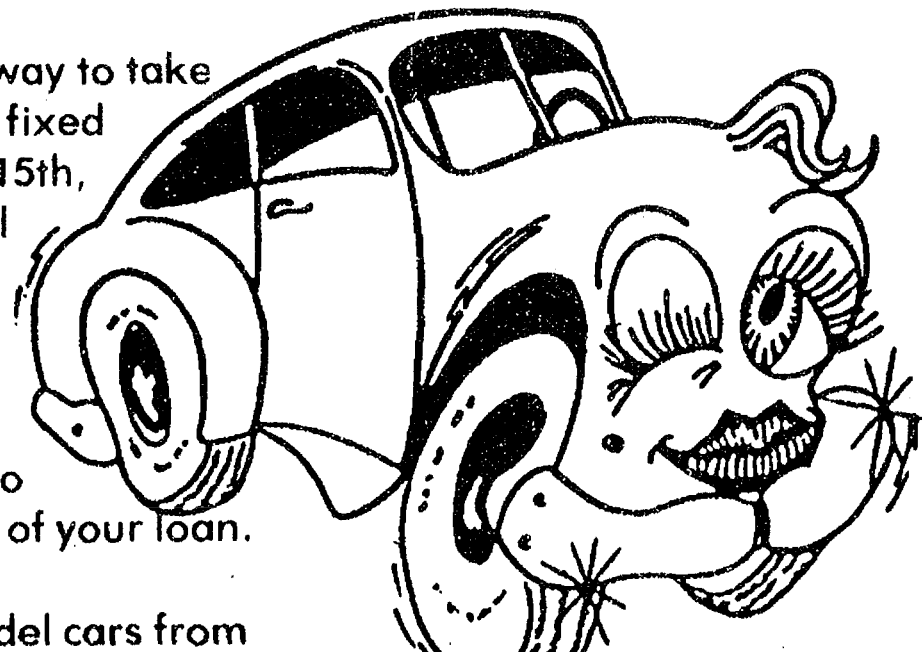

The purpose of the hearing is to receive testimony and discuss the levy of an additional millage rate. Not less than seven (7) days following the public hearing, the Board of Education may approve all or any portion of the proposed additional millage rate.

This notice is given by order of the Board of Education.

HAS A NEW CAR CAUGHT YOUR EYE?

Introducing the Variable Rate Loan from Gaylord State Bank

It's a brand new way to finance your next car. A way to take advantage of lower, initial interest rates. Lower, fixed monthly payments. And, between now and May 15th, we're offering a Variable Rate of 11.50% annual percentage rate. It's been a long long time since you've been able to buy the car of your choice at a rate that low. Best of all, if current market rates go down, our 11.50% rate will be reduced even more. And, even if interest rates go up, your payment will not increase during the life of your loan.

Our 11.50% variable rate applies to new 1984 model cars from now until we close on Tuesday, May 15th. And it is available through any Gaylord or Grayling dealer or any Gaylord State Bank Office. So, don't delay. Make your deal before May 15th and drive away with the lowest new car loan in town.

A Bit of History

It is surprising to study the history of certain store buildings located in Grayling. Let's delve into the background of the hardware store on the corner of Michigan Avenue and James Street. This place was built in 1911. It was one of the several saloons located in Grayling at that time.

After prohibition came along it was changed into a pool room that operated for several years.

The next business located in the building was a jewelry store. Later when prohibition was lifted it became a restaurant and a watering place for beer drinkers. The restaurant flourished for several years but finally closed.

About that time a hardware store was established in that location. This type of business has operated for about 30 years or more. During this time the ownership has changed a few times.

It is hard to realize that a prosperous cigar factory operated on the second floor of the building. This cigar factory was started in 1911 and continued for a number of years.

In April 1915, "J.W. Letzkus, owner, shipped eleven thousand cigars in one shipment to Gaylord." A quote from April 22, 1915, news item in the April, 1984, Crawford County Avalanche. At that time I suppose that cigars were five cents each.

We have a lot of history in our area. My only wish is that more people would contribute historical material about our heritage for the newspapers.

We plan to open the Crawford County Historical Museum on Saturday, May 26. Try to visit this Historical Place during the summer of 1984.

more importantly, is an insult to the citizens of Crawford County," the letter said. "I believe I have made some accomplishments on the board, as much as because of it, and I shall continue to be of service to the community in any manner possible congruent with common sense and decency," the letter concluded.

Joyce said his major disappointment was the failure of the board to use his negotiating experience. As superintendent of Oak Park School District, he was the chief negotiator dealing with more

than 900 employees, and he has written a copyrighted 182-page personnel manual.

"I've gone through every phase of labor negotiations, writing initial contracts, arbitration, court injunctions, mediations, fact-finding, and strikes," Joyce said.

Joyce served on the county board labor committees from Jan. 1983 to March 1983 when Kitchen removed him from the committee. He was reappointed to the labor committee last December after Mary Harland, Larry Mattis, and Kitchen resigned from the committee.

Joyce said he was disappointed things didn't work out, but said he was proud of his work especially an infrastructure mapping project — something he felt was the most important project the county has accomplished in the last two years.

After receiving the letter, Kitchen said Joyce's statement about the county not following Act 621 was erroneous and she commented that while Joyce was chairman of the finance committee he didn't attempt to change much. She felt he wasn't doing a good job as chairman of the county board's most important committee and appointed Mattis as finance chairman the following year.

Kitchen said she can't imagine where the county could have saved \$20,000 as Joyce's letter says because the county did not have to pay back wages or benefits in the arbitration case he refers to. She said she was kind of surprised at the letter which she felt didn't represent the truth. Kitchen said it was unfair to include in the letter to her the comment about Joyce, Welser, or Neilson going to meetings because she never felt that way.

The board will have to appoint a new commissioner from district 7 within 30 days, Kitchen said, or the county will have to have a special election according to law. She said the board will probably advertise the special appointment. The seat will be up for election in the November regular election.

Editor's Mailbox

May 1, 1984

To The Editor:

As Senior Citizens of the Grayling area we wish to express ourselves about the despicable way in which Lora Gould has been treated by HUD. Lora said it all when she said "Am I working for the Establishment or for the People?"

Lora has our support and approval for all she has done throughout the years to coordinate the Housing and Senior Citizen Activities.

We are satisfied and happy with the energy she put into her work. This energy manifested itself in the high class of housekeeping throughout the entire facility, as well as the quality of all the buildings, and the social programs made available to everyone.

As friends of Lora as well as taxpayers, we feel it is a great loss to HUD that she resigned.

Also, we are fearful that any other person taking the position Lora held will have a tough time to match her accomplishments. We are grateful that she is continuing to work for the Commission on Aging.

We have seen what happens in other areas of the State when HUD takes over. Many beautiful homes in the Detroit area bit the dust.

City Council Proceedings

Special Meeting of the City Council held April 16, 1984.

Meeting called to order by Mayor Pro-Tem Golnick at 7:32 p.m. at the request of Mayor Thompson.

Members present: Latusek, Sabin, Sloan, Thompson, Golnick.

Members absent: None

Also in attendance: Jerry W. Morford, City Manager; Allen V. Schreiner, City Treasurer.

Citizens who wish to speak. There were no citizens who wished to speak.

There were no communications received.

Old Business

Mr. Morford made a brief presentation of the 1984-85 budget as prepared by City Manager and City Treasurer.

He noted that the budget as presented would require the use of \$170,000, in unappropriated surplus from prior years.

The budget provided funds for several new and or expanded City services as well as normal inflation in ongoing programs.

The shortfall was also partly due to a slowdown in growth of revenue sources.

Mr. Morford also presented a proposal showing several measures to eliminate or reduce the shortfall.

Council was in general agreement that they would prefer not to increase property tax millage rates and would cut expenses and use some current Federal Revenue Sharing Funds to balance the budget.

A line by line review of the budget occurred with Council recommending cuts in various items to result in a revised budget which cut expenses by \$92,000.00 and requires the use of \$48,000.00 Federal Revenue Sharing and approximately \$27,300.00 of unappropriated funds for a balance.

Further study of the proposed budget will occur at the regular council meetings of April 30, 1984.

New Business. None.

Reports of Councilmen. None.

Reports of City Manager. None.

Adjournment.

Motion by Golnick, supported by Sloan that the meetings be adjourned. Ayes: 4, Nays: 0, Absent: 1 (Thompson left at 9:45 p.m.), motion carried. The meeting was adjourned at 10:30 p.m.

AFTER THE STORM...

a note of thanks to our customers.

This week's sudden windstorm whipped through Michigan with the force of a hurricane. Devastating 80 mph winds.

Consumers Power Company crews scrambled to repair millions of dollars worth of equipment and downed electric lines which left more than a third of a million customers without power. It has been a trying time for both our customers and our crews. And we appreciate your patience and understanding.

Company crewmen are especially grateful for your cooperation. Workers have been repairing lines around the clock and frankly, the widespread damages were more than our workers could handle. Additional crews had to be imported from Ohio to aid in the restoration.

Without your kind understanding, our work would have been much more difficult. We regret the inconvenience that any outage causes and will continue to work — as we have for nearly a century — to build a better, more reliable electric system. Building that system requires that the company have in place well-trained workers and well-planned procedures to deal with emergency situations. But it also requires the company to plan today for the needs of our customers into the '90s and the next century.

Maybe that's something you take for granted — but we don't really mind. In fact, we take pride in it. Because a good, reliable electric system *should* be taken for granted.

Michigan, you've got
a powerful future.

Residential Refuse Pick-Up

With the additional influx of people to our city during the summer months, we would like to mention a few things to help keep our city clean.

An occurring problem on the refuse pick-up exists. Residents are pleased asked not to put their refuse out at curbside no earlier than Sunday evening and no later than 8:00 a.m. Monday.

Containers should be of sufficient strength to hold contents when being handled and light enough for one person to lift.

Empty containers should be taken in as soon as possible.

Leaves should be placed in bags. Brush and tree limbs should be cut in manageable lengths. All items should be placed at curbside.

The leaf machine will only be out spring and fall for the suctioning up of leaves and then they should be piled by the curb. During the summer months leaves should be placed in bags or containers for pick-up as the machine will not be out.

Never put leaves outside the curb in the street, as rain water will flush them into the sewer system and plug it up.

Larger items such as appliances, etc., will be picked up by the city but not the first time through. They will be picked up later in the morning.

Call the city office for information concerning disposition of motor oil, industrial solvents, turpentine, etc.

Once again we would like to stress to please not to put your refuse out until Sunday night or Monday morning. We will be having a Grayling Beautification Week in the future and all citizens should help to keep Grayling beautiful, more on that later.

It is not a pleasant sight to see refuse sitting out at curbside on Thursday, Friday and Saturday nights.

We hope the information will be helpful and any additional information will be provided by calling the city office.

Alumni News

In this month of May, our thoughts turn to Graduation. Just ahead, we have to make selections for our Alumni Scholarships. They will be given at the Alumni Awards Program at the High School. We have three from our membership and all monies for these come from their contributions.

Our Scholarship program started in 1979. We also have jurisdiction over two others. The Carl W. Borchers Memorial was established by Mary Gretchen and Clyde Borchers for their son.

Another faithful Alumnus, Hardin C. Sweeney, will give a Scholarship this year, as memorial to his Class of 1915. He has remarked many times that he owes a lot to G.H.S.

He taught at Creighton University, Omaha, Nebraska, after a career in the U.S. Army. He is still in Omaha. Last year, we received enough memorials to departed Alumni to give our own Memorial Scholarship...It is a worthwhile contribution that we make toward the further education of these few students...

Grayling Co-op Nursery

The children had quite a thrill when the DNR visited the nursery for a learning experience for the children. They dazzled them with a real live Owl that the little ones had a chance to feed. A filmstrip was also shown to make the children more aware of the great wonders and also the dangers of the world around them.

On May 3rd and 4th, fifty-five pre-schoolers participated in a special activity to help Easter Seals. The event, known as a "Hop-N-Ing" emphasize's motor skills, and at the same time helps raise funds to benefit children and adults with disabilities. Each child hopped for a 3 minute timed period, and now will be collecting their pledges from family and friends. Congratulations pre-schoolers for a job well done.

May will be a busy month, our class picnics have been scheduled for May 15, (17th rain date) for the three year olds and May 16, (18th rain date) for the four year olds. The picnics are held at Hartwick Pines from 11 a.m. - 2 p.m. on the appointed days. Hot dog and buns will be furnished, bring a dish to pass and table service.

Graduation is set for May 24th at 7:00 p.m. at the Elementary School, four year olds should be there by 6:45 p.m. The three year olds will have a recognition party during the last hour of school on May 24th. Parents are welcome to attend.

May 30, from 6:30 - 8:00 p.m. is Open House Round-up for new nursery school children and their parents. This is the perfect opportunity to meet the teacher, see the inside of our building, and have questions answered. Registration forms will also be available. Refreshments will be served. Everyone is welcome.

CRAWFORD AuSABLE SCHOOLS VOLUNTEERS

In Observance of

National Volunteer Week

May 6 - 12,

The Crawford AuSable School District Has taken a Special Day, Friday, May 11th

To recognize and honor the volunteers who have given so generously of their time and talents this past school year. A special Recognition luncheon will be held in their honor at the Arrowhead Inn on that date with guest speakers, Kent Reynolds, Superintendent; Carl Naghtin, High School Principal; and Sherry Haag, RSVP Director.

To keep a school running efficiently we need not only teachers and various staff members, but also interested and concerned people who are willing to help the students and staff by performing various jobs which enable the teachers to get on with the job of teaching.

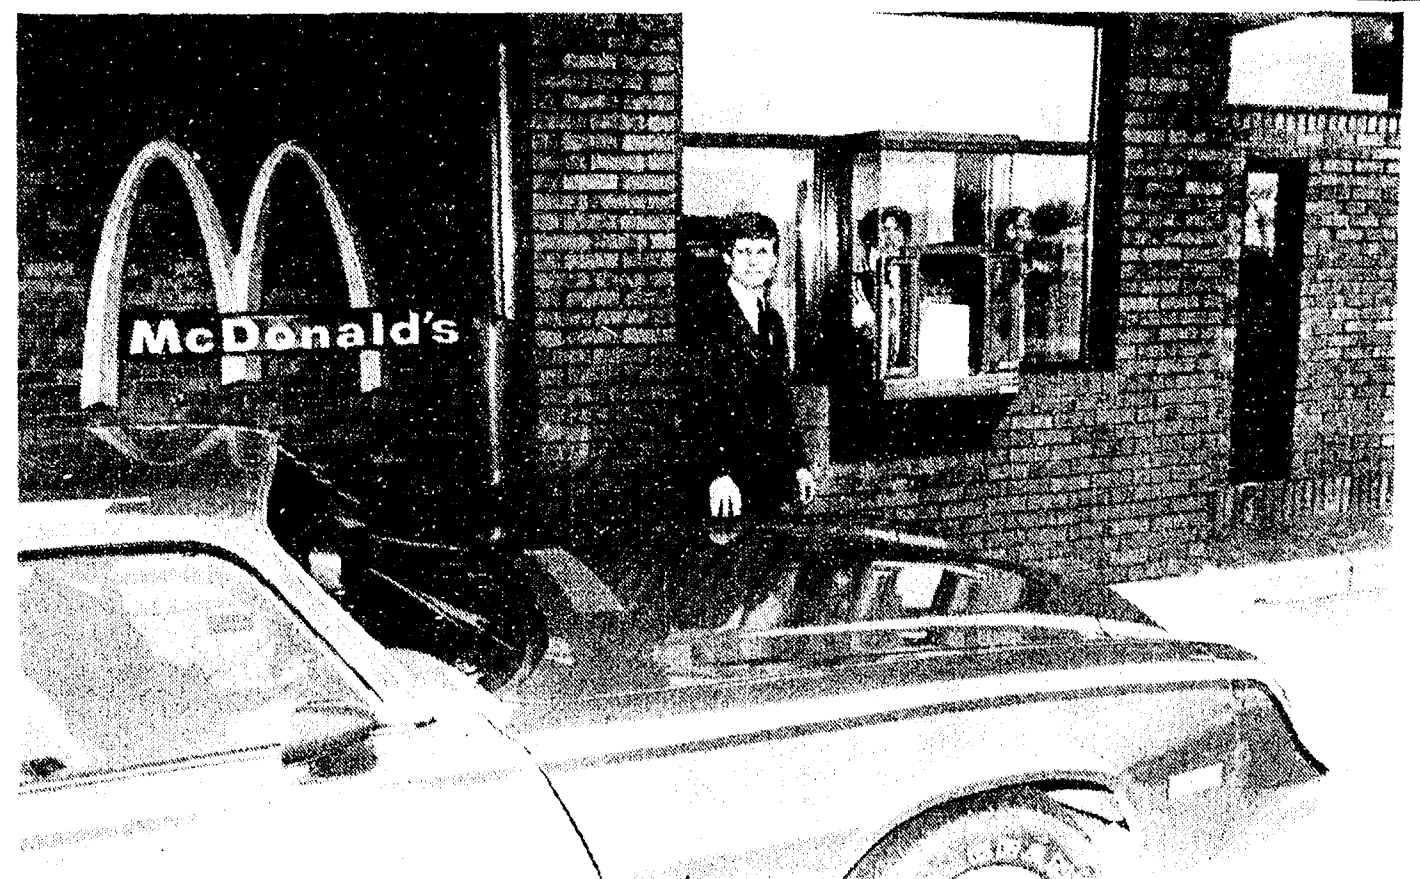

This year we have been fortunate to have 86 men and women who have helped us complete another successful school year.

We would like to take this opportunity to personally name all of these people; parents, grandparents, young recently graduated students, and our RSVP people. Please accept our gratitude on behalf of the Administration, Teachers, staff, and students of Crawford AuSable Schools.

Chamber Chatter

By Joyce Koika

The possibility of a new brochure for the distribution to visitors will soon be a reality. Pete Allen and Executive Director, Walt Nowak, have teamed up to contact advertisers for the brochure. To refresh your memory, we are adding 16 or more pages of identification ads to an existing eight page promotional piece. We have an inventory of 25,000 of the eight page piece left over from an Industrial Development Committee promotion that was funded by the Private Industry Council of which we are a member. The 16 or more pages will be stapled inside to make a very attractive brochure. The demand for this type of community information is almost overwhelming. The 10 Michigan Highway Information Centers request 10 to 12 thousand. The balance of the inventory, which usually lasts only 12 to 16 months will be distributed at sports shows, Camp Grayling Trainees and other responses to requests through the mail and phone. Businesses are asked to participate in this program. It's a very economical way to give your message 25,000 times to potential customers.

On another matter, the staff is preparing material and information for a one day "workshop" for old and new members of the board of directors. The purpose of the meeting is to acquaint the board members with the goals and objectives of the chamber and how they will develop into community economics. This year, special representatives of county, city and township government are being invited to discuss the role of public officials in the overall prosperity of community development. Leaders of industry, business and finance are also being considered for a discussion of their contribution to the local economy. The economic impact of Camp Grayling will certainly also be a major factor. The results of this all day discussion and assessment of responsibilities for the completion of these goals, will be the basis for the Annual Chamber Banquet presently scheduled for June 14, 1984. June 1st is the beginning of the current fiscal year. This kind of effort by the community leadership will develop into a united plan for the immediate and long range destiny of Grayling and Crawford County.

Last Thursday a ribbon cutting was held at Northland Casuals in the Grayling Mini Mall. The owners are Mr. and Mrs. Ken Putnam. Managers, Mr. and Mrs. Floyd Gall, assure us the shop will be open seven days a week. The chamber welcomes them and urges the citizens of Grayling to stop by Northland Casuals and also welcome them to the community.

CHURCH DIRECTORY

New Arrival Mother

The arrival of a baby is a miracle—it is creation! Birth brings into the world a new personality, alive with the promise for a full and useful life. Babies! Each one is unique! Each one is divinely different! Even identical twins have different personalities, despite their same physical looks. Yet each mother is also unique in her own special way.

The same infinite power that provides the spark of life for a new child also created you. Like every baby who grows into an adult, you too have the stamp of your own individuality. There is nobody else in the world quite like Mom.

In fact, you, yourself are a walking, breathing miracle. And every day an all-wise and loving Heavenly Father brings you yet another great and unique miracle... a fresh, new, untouched day.

God's Church stands ready and anxious to help you begin these days with new hope—a new promise.

This week, let all of us pay homage to our mothers. Attend the church or synagogue of your choice.

Star Mystery

The eclipse of Epsilon Aurigae—a star 250 times bigger than the sun and 50,000 times as bright—is one of the classical mysteries of modern astronomy. Among the longest of the known eclipses, lasting nearly two years and occurring only every 27.1, it has bedeviled astronomers throughout the 20th century.

mittees, said the many problems experienced by the aging commission would have been alleviated or eliminated if the committees had been already in place.

At the Tuesday meeting, Sue Schuler, director of area agencies for the North East Michigan Community Services Agency, told the board she appreciated the good job the commission had performed in the last month, but she was not happy with communication with the commission on aging. She said although NEMSCA has an \$88,000 contract with Crawford County, her agency hasn't received any communication in the last month. She said they don't know where programs are being held, where they should send checks, or who should sign forms for additional grant money. She said there are many questions to be asked including grants involving a multi-purpose senior center now that Crawford no longer uses one.

Allen apologized on behalf of the board for the poor communications and said they will be in close contact with NEMSCA.

Editor's Mailbox

May 7, 1984

Dear Editor,
Last week's windstorm tested the ability and stamina of Consumers Power Company's employees and the good humor and patience of thousands of our customers. During this storm there were instances of customers having service restored once only to have it lost again as the storm continued. All total, the number of outages reached more than 370,000. In the Northern Region alone 59,000 customers were out of service for varying periods of time.

I would like to express my thanks to our customers for their cooperation and patience as our employees worked tirelessly to restore service. The widespread nature of the damage from wind and falling trees and branches made this storm worse than those of 1976 and 1980 in some respects.

I am proud of the way the men and women of the Northern Region responded to this emergency. They showed me once again how devoted they are to maintaining service to our customers. I believe they also proved their devotion to duty and to the public we serve.

All of us are pleased that the restoration work was performed safely - a real achievement under the difficult circumstances our line crews encountered.

Sincerely,
John Goense
Region General Manager

"Annie" is one of the latest really successful shows to come off Broadway. "Annie" opened at the Alvin Theatre in New York on April 21, 1977 and during the course of its run there it captured no less than 27 nationally recognized awards including 5 for best musical of the year. IN LOVING MEMORY OF Heather Ann McCoullough

The Lord took you away from us 1 year ago May 8th, 1983, and still today we hold your memory so close to our hearts.

You were so small, so young, but you were needed above, to help the Angels - you were such a special "Little Lady" and we loved you so, and we are thankful to have had you with us the time you spent here on earth.
